

Mobile Telephone Numbers

Please ensure we have an up to date mobile telephone number for you on our records. We can now send text reminders of appointments, and can also send you reminders if you need to come in for a check up.

Citizens Advice

We now have a Citizens Advice worker in the surgery. He sees patients by appointment. If you feel you need advice on legal matters, debt, housing, benefits, consumer affairs or similar, ask at reception for an appointment.

Seasonal Flu Vaccinations

Clinics for seasonal flu vaccinations are now well underway, if you are entitled to a flu vaccination but have not yet made an appointment, please call reception. Each year

we notice that many patients wait for us to call them to make their appointment—we give 1200 vaccinations within the space of a few weeks and you would make our job much easier by ringing or calling in to make your appointment—thank you.

Health Care Assistant & Flu Vaccinations

Our receptionist Eileen Millar has for some time been doing a split role, half in reception and half as a Health Care Assistant, taking blood, weighing and measuring and other checks. This year, having had comprehensive training, she will also be giving flu vaccinations.

Telephone System

Our telephone system is due to change shortly and will allow patients to book, cancel or change their appointments. You will be able to do this when the surgery is closed. At the moment only a limited number of appointments will be available for booking this way. If the appointment you are offered is not convenient, please speak to reception.

Swine Flu Vaccinations

We don't yet have full details, but it is likely that we will be administering the new swine flu vaccinations once they are available. Please see local and national

press and look out for a letter from us. As above, it would help enormously if you would ring us for your appointment. Please ensure we have your mobile telephone number so we can send a reminder to you.
